**Subject:** H&L Oil Co. Tank Removal

Good Morning Mark and Ryan:

Had a voice mail on my cell phone over the weekend from Doug Nething of Deans Tank informing me that after checking one of the 4,000 gallon tanks he found 66 inches of water.

When he informed the owner ( Mr. Dennis Decker ) Mr. Decker indicated he can only afford one or the other ( tank removal or water removal but not both. Tank removal is around \$ 5,000.00.. No idea what the pump out and disposal of water may be... I have a call in to Doug but have not heard back from him. Give me a call when you get this and we can discuss. A phone call to the owner is probably needed.

Stan
